Professional Summary

Computer Science graduate with experience in content creation, voice-over narration, technical documentation, and software development. Experienced in scripting, recording, editing, and publishing digital content while maintaining high standards of clarity, pronunciation, and audience engagement. Comfortable working independently in remote environments, following detailed creative direction, and delivering high-quality work within deadlines. Passionate about AI technologies and excited to contribute to the development of next-generation AI systems through accurate, natural, and high-quality spoken and written content.

Core Competencies

- Voice Recording & Narration
- Script Reading & Interpretation
- Clear Spoken Communication
- English Pronunciation & Articulation
- Technical Writing & Documentation
- Video Production & Editing
- Attention to Detail
- Time Management
- Remote Collaboration
- Written Communication
- Problem Solving
- Microsoft Office
- Google Workspace

Professional Experience

Content Creator & Video Producer

Self-Directed Projects | 2023 – Present

- Wrote, narrated, and recorded voice-overs for storytelling, ASMR, fitness, and educational video content.
- Produced and edited videos using professional editing software for online platforms.
- Managed the complete production process, including scripting, recording, editing, thumbnail creation, and publishing.
- Maintained consistent vocal delivery with attention to pacing, pronunciation, clarity, and audience engagement.
- Adapted narration style to suit different genres and target audiences.
- Worked independently to meet self-imposed publishing schedules and project deadlines.

Software & AI Projects

- Developed full-stack web applications using JavaScript, React, Vue.js, Node.js, and Express.
- Built responsive user interfaces and integrated REST APIs.
- Worked with SQL databases and Git-based version control.
- Created technical documentation to support software development projects and improve project maintainability.

Education

Bachelor of Science (BSc) Computer Science
University of Cape Coast

Technical Skills

Programming: Python, JavaScript, HTML, CSS, SQL

Frameworks: React, Vue.js, Node.js, Express

Tools: Git, GitHub, Visual Studio Code, Microsoft Office, Google Workspace

Content Creation: Adobe Premiere Pro, DaVinci Resolve, Audacity, OBS Studio
